LOCOMOTION PROPOSAL 02

About Us

We proud to tell you that our company can offer spectre of great and professional services

WHO WE ARE

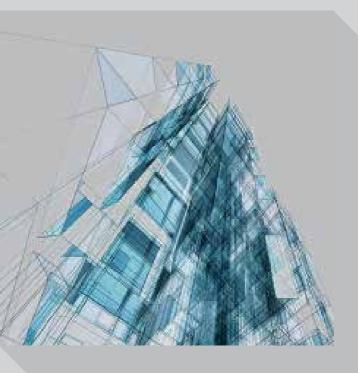

WHAT WE DO

LOCOMOTION is a company specializing in Architecture design: (Interior-exterior-landscape) to provide more alternatives and proposals to our customers.

Our design team can work closely with you to establish a look and feel that puts your own stamp on the project. Alternatively, leave our designers to take charge and inspire you. Here at LOCOMOTION we also understand that the design should not be unrealistic and cost prohibitive. Whatever the designers create it is supported by detailed specifications and fixed pricing.

Clients are more and more visual as the design world evolves. We help clients fully understand the design intent of a specific project by allowing them to experience what this space looks and feels like before ground even breaks. By creating life-like animations with textures, colors, shadows, and entourage, they experience fly-through demonstrations of not only the overall impression, but the ground level human scale as well.

We will also prepare 3D renders so you can see the 2D plans come to life. Once a building survey has been carried out and the drawings in principle have been signed off we can give detailed budgetary information.
